

# Guard Rail Detail

## Rockwood Classic™

If structure is less than 18" wide, cut grid around structure. Grid may be bundled in vicinity of structure, then layered back out.

Consult a local engineer for guardrail embedment and setback from wall.

Not to Scale

This drawing is furnished for preliminary design purposes only, and should not be used for final design drawings or construction drawings without the certification of a professional engineer registered in the state in which the wall will be constructed. These drawings are "typical" and may be amended or revised by the SRW engineer based on project site conditions and purposes.
